## DICE GT

### Instructions for Submitting

#### **Art Files Substrates Sample Requests**

#### **Artwork Submission Instructions:**

File requirements for submitting artwork to print on our DICE GT inkjet color module.

**File Formats:** .ai files (Adobe Illustrator),  
.pdf (portable document format if saved at 360 dpi or higher resolution)  
.eps files (Embedded post script, if they contain embedded raster images they must be at 360 dpi or higher)  
.bmp files (windows bit map files at 360 dpi)  
.tiff files (Tagged Image Files, windows format, 360 dpi)  
Not good - .tiff, jpeg or bmp files saved at low resolution as is typically used on the internet

**Text/Fonts:** All text embedded (not outlined)

**Barcodes:** Identify any barcode types.

**Previous Sample:** Please submit a previous actual sample printed on your existing equipment.

Email artwork to the representative you have been dealing with.

#### **Substrate Submission Instructions:**

For PPSI to print color inkjet samples on your materials or substrates.

Note: We do most testing on a special flatbed printer for added versatility, thus you should submit your samples in sheet form. We print standard samples CMYK in one pass, one head wide (2.7 inches wide).

**Sheet Size:** 6" x 11" (or something close to this size)

**Quantity:** At least 25 sheets of each substrate you wish to test

**Labeling:** Clearly identify each substrate with a marking pen or label

**Multiple Substrates:** If submitting multiple substrate types label every individual sheet if possible.

Send Sample Substrates to:

Prototype and Production Systems Inc.  
Customer Sample "Your Company Name"  
13860 Industrial Park Blvd.  
Plymouth, MN 55441

#### **Sample Requests:**

Information needed when requesting samples printed on our DICE GT inkjet color module.
